New York

New York, January 28.—Wall Street took a toore cheerful view of the stock market conditions to-day. Prices of most of the leading stocks were marked upit to 2 points with a number of much larger gains in special instances. Considerable more business was done in the first hour of trading than during the entire session of yesterday and though the pace sisckened later, the higher level of prices was well maintained. American can issued were unusually active and scored the most conspicuous advances of the day.

Builish impulses from several quarters contributed to the quota of steckmarket information which shaped sentiment amon; more hopeful lines. The railroad list was strengthened by excellent reports for December of several large Western systems, including Union Pacific. Northern Pacific and Northwestern. Formation of the International Harvester Corporation was construed in the Wall Street point of view as placing the Harvester interests in a more favorable position, notwithstanding the statement from Washington that this action would not after the aspect of the government proceeding.

Renewed activity of large speculative interests in the shape of bullish manipulation of special etocks also helped to stimulate the market. Most potent of all the direct influences was the fenor of Governor Subar's message to the Legislature dealing with stock exchange legislation. The message was generally regarded as moderate in tone, despite the protest voiced by the stock exchange authorities, and went far toward relieving the uneasiness which has been felt concerning the possible character of State legislation. How largely to day's movement was the result of these results, rather than harbed or of the protest of the possible character of State legislation.

He will reach here to-morrow however, and speak in Madison Hall at 7.39 o'clock in the evening. His subject will be "Blactbeth Negro Labor in Slavery and Freedom, Its Efficiency years of persistent investigation has prepared Dr. Phillips for such a discission and supplied him with a fund of vital information.
